

Subject	Design and Technology		
Title/Topic	Format	Length	WC
Project 1 – DT skills and concepts	All project work	On-going in class	N/A

My Advent assessment will test my knowledge on...

In Design and technology, you are assessed on the work that you produce during each project. This includes research and preparatory work, your final project outcome and your evaluation. This closely follows the way in which students are assessed in this subject at GCSE level. You will not complete a separate assessment piece in this assessment window.

You teacher will be looking for the following evidence within your work:

- Understanding of the iterative design process
- Ability to generate a range of ideas and to develop suitable ideas.
- To communicate design thinking through drawing and annotation.
- Knowledge of and ability to apply safe working methods in the workshop.
- Ability to model and prototype design ideas.
- Ability to evaluate and modify design ideas.

What should I do to revise and prepare for this assessment?

To prepare for this assessment:

1. Continue to work hard and apply yourself in DT lessons.
2. Ensure that you complete every task to the best of your ability.
3. Complete homework tasks to the best of your ability.
4. Listen carefully to advice and act on any feedback that you are given.
5. Revisit previous work in your workbook to see whether you can now make any improvements to it.

What useful websites/resources could I use to help me prepare?
