| Title/Topic | Format | Length | WC |
| Networks and the internet | Multiple Choice Test | 40 minutes | 21 November |

My Advent assessment will test my knowledge on...

- What are the benefits and drawbacks of networks?
- What is the difference between a LAN and WAN?
- What is "Network Hardware"?
- What hardware is needed to build a network?
- What is an IP address and why are they important in a network?
- What is the internet and how is data sent around it?
- What is a protocol?
- What are the main protocols used in common online communications?

What should I do to revise and prepare for this assessment?

To prepare for this assessment:

1. Learn all the key information on the knowledge organiser
2. Complete the revision activities set for homework
3. Look back through the digital booklet and resources to prepare

What useful websites/resources could I use to help me prepare?

OneDrive for access to lesson PowerPoints
OneNote for access to your lesson workbook
