Subject	Further Mathematics		
Title/Topic	**Format**	**Length**	**Date**
Paper 1 – Statistics	Written Paper	75 minutes	19 June
Paper 2 – Modelling with Algorithms	Written Paper	75 minutes	19 June

This assessment will test my knowledge on…

All the material covered in the applied units:

Paper 1 – Minor option: Statistics

- Sampling
- Discrete random variables
- Bivariate data
- Chi-squared tests

Paper 2 - Modelling with algorithms

- Algorithms
- Networks
- Linear programming

What should I do to revise and prepare for this assessment?

To prepare for this assessment:

1. Review the work you have completed in class this year. Work through the practice questions you have been provided after each lesson again so that you have a deep understanding of all the topics covered.
2. Complete and revisit the integral assessments for the first two units covered this year.
3. Complete questions from your text book.
4. Complete the revision booklet provided to you by your class teacher.

What useful websites/resources could I use to help me prepare?
