

Disability & Inclusion, Accessibility Plan

Priority	Responsible Person(s)	Action Required	Resources	Date and process of review	Success Criteria
Promote disability awareness through L4L and focused weeks in school. Educating students on different learning needs and disabilities including autism, dyslexia, visual and hearing impairments, attention deficit and hyperactivity disorder, mental health as well as physical conditions including muscular dystrophy. Such topics are also covered in curriculum areas that explain different disabilities and how these can impact a person, raising awareness and knowledge.	SLT	<p>L4L scheme of work – Monitoring topics covered and taught in different year groups.</p> <p>All staff level 1 Autism trained to raise awareness in staff and helping them support students. Providing coping strategies and making reasonable adjustments in class.</p> <p>Act of worship focusing on topics that help students reflect on such topics and disabilities.</p>	<p>SoW</p> <p>Teaching resources and power points</p> <p>External agency guidance.</p>	<p>Review annually (Sept)</p>	<p>Greater whole school awareness and understanding of disabilities.</p> <p>Positive communication amongst staff and students to improve awareness and understanding.</p> <p>John Hantias – supporting emotional well being of students across all year groups.</p> <p>External counsellor – Anika supporting students with mental health.</p> <p>External agency (MHT) support to train staff and work with students in school 1 day a week.</p>

Disability & Inclusion, Accessibility Plan

Access around school with ramps and wider doors to allow for wheel chair access.	SLT, Site staff.	Two ramps still need to be installed (plans are well advanced). However, there has been a huge level of progress made in this area with access much improved for wheelchairs.		Work completed June 2020	Greater access for physically disabled, completed in June 2020. Further ramps to be installed in 2022.
2 defibrillators in school	SLT, Wendy Herbert.	These are located in reception and the PE office. Staff are trained as well as 6 th formers receiving training on CPR and the importance of this. We also raise awareness in school on heart conditions as a former student sadly passed away from a cardiac arrest outside of school. Our college works with his memorial trust annually to raise awareness.	JHMT Regular training for staff.	Dec each year	Ensure equipment is safe and up to date, new batteries replaced, staff trained.
Relationship's Sex Education, emotional well being awareness.	KCH & RJI	Resources provided in L4L, Religious Education and Science to provide students with an in-depth knowledge of RSE and positive relationships, as well as emotional understanding and support. This helps students to make positive choices and develops emotional intelligence.	SoW L4L program Staffing	Annually (Sept)	KCH to review L4L tracking document to make sure all students have access to such lessons.

Disability & Inclusion, Accessibility Plan

External agency partnerships	KCH	<p>Partnership developed to support young people with specific needs as well as their families.</p> <p>Promoting knowledge of such disabilities including Autism and ADHD.</p> <p>SENCO works with staff closely to support families and young people with their needs and disabilities providing coping strategies and networking.</p>	<p>External policies</p> <p>Staff training</p>	May 2020	<p>Provides staff with a greater level of knowledge so students can be supported well in school.</p> <p>Offer support to families and a positive working relationship with all involved.</p>
Visual Impairment risk assessment	Local Authority and KCH	Local Authority completed a detailed risk assessment to allow visually impaired students to fully access the school site and be safe. Highlighting areas of need, school have addressed these and safety measures all completed.
