

Subject	Art, Design and Technology		
Title/Topic	Format	Length	Week Commencing
Year 9 Folder and Sketchbook	All project work	On-going in class	N/A

This assessment will test my knowledge on...

In Art, Design and Technology, assessment is based on the work you complete during each project across all of the specialist areas. This approach reflects how students are assessed at GCSE level.

There is no separate test or assessment piece during this assessment window. Instead, your overall performance is judged on the quality and consistency of your work across all areas of the subject.

Your teacher will be looking for the following evidence within your work:

- Demonstrating critical understanding of artists and designers.
- Developing ideas through exploration and experimentation
- Recording the development of ideas, including planning final outcomes
- Demonstrating knowledge and understanding of materials, ingredients, tools, techniques and processes

Evidence across different areas:

- **Art:** Sketchbooks which include research, experimentation and final outcomes
- **DT:** Computer-based design work and iterative design development
- **DT - Food:** Knowledge demonstrated through worksheets and written work in folders from theory lessons. From practical lessons, the quality of the final dish, alongside safe, clean and efficient working practices

What should I do to revise and prepare for this assessment?

To prepare for this assessment:

1. Continue to work hard and apply yourself in ADT lessons.
2. Ensure that you complete every task to the best of your ability.
3. Complete homework tasks to the best of your ability.
4. Listen carefully to advice and act on any feedback that you are given.
5. Revisit previous work in your workbook to see whether you can now make any improvements to it.

What useful websites/resources could I use to help me prepare?
